ABOUT PRECISION

Precision is a brand created by Asia Hub Limited, which is a rapidly expanding private enterprise that seamlessly integrates Italian design and craftsmanship with the manufacturing efficiency of China and Southeast Asia. Our commitment is to deliver personalized services to the military and private security sectors. We specialize in providing international customers with customized, off-the-shelf solutions for battle and ceremonial attire, personal protection gear, and accessories.

Asia Hub Ltd holds partial ownership in two factories in China as a significant shareholder. The first is in Xuzhou, north of Jiangsu, focusing primarily on woven styles. The second factory, based in Yangzhou in the middle of Jiangsu, specializes in taped jackets. This strategic allocation allows Asia Hub to ensure priority in production, guaranteeing timely deliveries and superior product quality.

PRECISION

History

Established in 2018, Asia Hub Ltd initially entered the market as a manufacturer and supplier of children's fashion. Recognizing the increasing global demand for military and security-related products, the company's leadership swiftly pivoted its focus. Leveraging its proficiency in pattern drawing and textiles, Asia Hub transitioned its production to deliver meticulously designed military and police clothing and accompanying accessories. Furthermore, the company expanded its capabilities by developing military-grade fabrics to provide comprehensive protection for the wearer.

Core Values

Asia Hub adheres to core values that prioritize quality, service, and honesty above all else. As a result, the company has emerged as a frontrunner in the contemporary manufacturing and supply of garment products and accessories tailored for military use, specifically designed for peace and stability operations.

Business Model & Workshop

Our business model involves direct research and procurement of all garment materials. Typically, we engage customers in fabric selection through specific tenders to ensure compliance with specified standards. Subsequently, the manufacturing of articles takes place in external workshops. Over the years, we've diligently cultivated strong partnerships with various workshops in China and Asia, including those owned by our shareholders.

Close collaboration with suppliers enables us to implement rigorous internal and external quality control. This advantageous position allows us to selectively choose the highest quality materials at the most competitive prices on a project-by-project basis. Consequently, we have positioned ourselves as one of the market's most competitive suppliers of personal protection, offering superior quality at optimal prices.

Research and Development

Our commitment to Research and Development is evident through substantial investments in cutting-edge production equipment, notably the implementation of China's most advanced CAD design system, encompassing production, study, and research. This strategic move has empowered us to create innovative, highly functional products that consistently meet the highest quality standards. Asia Hub proudly upholds European quality standards, ensuring rigorous testing of all materials.

In response to the evolving landscape of economic globalization and aligning with our core values of delivering excellence in quality and service, we continuously channel investments into software and hardware innovations. This ongoing effort aims to streamline our ordering, production, and delivery processes. In pursuit of our ambitious growth plans, we have recently established a robust company management system tailored for the global market. These advancements have introduced newfound flexibility and adaptability, yielding positive outcomes for our company and esteemed customers.

Technical Capabilities

Asia hub takes pride in its technical capabilities, specializing in customizing clothing and accessories for military and police forces. While not an exhaustive

list, some examples of our fulfilled orders include the design and production of high-quality military overcoats, Air Force and Police jackets, battle fatigues, camouflage training clothing, chemical defense clothing, windbreakers, raincoats, as well as Military and Police caps. Additionally, we manufacture a variety of logos, badges, and military shields.

Our portfolio extends to producing flame-resistant thermal underwear, balaclavas, and tactical gear for the Police, all compliant with the highest European standards. Furthermore, we have expertise in crafting textiles with moisture-wicking and insect-repellent treatment. Our range includes functional garments with crease and wrinkle resistance, Coolmax technology, clean, excellent properties, antibiosis, antifouling, cool-dry functionality, radiation-proof materials, and anti-infrared technology.

Design

Precision specializes in crafting a comprehensive brand appearance that seamlessly blends functionality with uniqueness, aiming to provide an enhanced uniform experience for our clients. Our belief in continuous engagement with clients and end-users is a valuable source of insights into our uniform designs, enabling us to make necessary adjustments and better cater to our client's needs.

In addition to focusing on uniforms, we extend our design and manufacturing expertise to tents and accessories tailored for emergency and rescue operations. These products are supplied to government and non-governmental organizations involved in rescue efforts for victims of war and natural disasters globally, including within mainland China.

Our Customers

At the core of our operations is a commitment to prioritizing the customer. Our dedicated efforts revolve around delivering exceptional customer service, with our availability spanning all days, including weekends and holidays. We promptly provide quotations in response to inquiries, ensuring a seamless and responsive experience for our valued customersEurope.

In response to the dynamic trends of economic globalization, and in support of our values of excellence of quality and service, we continue to invest in software and hardware innovation, streamlining the ordering, production and delivery processes.

To further our ambitious growth plans, we have recently completed the setting up of a robust company management system for the world market. This will transform Asia Hub into a state of the art, international company.

These innovations have brought about flexibility and adaptability, resulting in positive gains to our company, and our valued customers.

Supplied Uniforms

Over the last five years, Asia Hub has been a reliable supplier, servicing clients such as the Italian Army and Navy. We hold the official supplier status for NATO armies with the NATO CAGE CODE SQPG8. Our products are renowned for their high quality and functional design. As a United Nations supplier, identified by the UNGM Vendor ID Number 596061, we have demonstrated our commitment to meeting international standards.

Within China, our clientele includes prominent institutions like the Supreme People's Court, the Supreme People's Inspection, Judicial Organs, National Customs, and the National Commercial Inspection Bureau. Additionally, we have supplied uniforms to designated high-grade suit factories, establishing our presence and credibility in the local market.

Logistics

Asia Hub takes immense pride in its reputation for providing reliable service, even in the most challenging situations. Through solid partnerships with storage and shipping companies, we have successfully delivered products to conflict zones and regions with unstable governments, from the Middle East to Africa.

Environmental Responsibility

At Asia Hub, sustainability precedes our design process; each collection is crafted from 100% sustainable fibers. Our commitment to designing with a focus on people and the planet reflects our conscientious approach to the uniform production process.

PRODUCTS

P R E C I S I O N

BASE LAYER

Breathable Short Sleeve T-Shirt with silver ion treatment

Long-lasting comfort and durability even during the most extreme physical activity. Lightweight, highly breathable and quick-drying thanks to silver ion treatment the shirt features flatlock seams for reduced friction, and raglan sleeves for improved range of motion. Suitable for off duty, training or outdoor exercise, the T-Shirt offers maximum mobility and protection

Features

- Breathable and lightweight
- Stretch fit for added comfort and mobility
- Crewneck for better ventilation
- Antibacterial
- Moisture-wicking keeps the body dry and fresh
- Ergonomic flatlock seams to avoid friction
- Suitable for use in hot temperatures

Composition

- 100% Polyester

Thermal Long-Sleeved T-Shirt

This shirt is ultra-tight, creating a second-skin fit for a locked-in feel.

Features

- Stretch-mesh underarm panels for improved ventilation
- UPF 30 protects your skin from the sun's harmful rays
- 4-way stretch construction for improved mobility
- Moisture wicking and quick drying
- Anti-odor technology prevents the growth of odor-causing microbes

Composition

- Mesh panel on back neck (88% Polyester/12% Elastane)
- Body: 90% Polyester/10% Elastane

Fire Retardant Thermal Underwear Pants

These soft and extremely comfortable active wear pants are ideal as a base layer under tactical gear or when outdoors.

Features

- Moisture absorption to keep the skin dry and warm
- Lightweight and highly breathable
- Ergonomic cut maximizes freedom of movement
- Flat seams reduce chafing
- Fire and flame retardant

Composition

- 50% Modacrylic 37% Cellulose 8% Polyaryte 5%Nylon;
- Weight 215 gsm

Standards

- EN 13402-3:2017 – Size designation of clothes;
- ISO 4915 – Textiles. Stitch types. Classification and terminology;
- ISO 4916 – Textiles. Seam types. Classification and terminology.

UNDERPANT SIZE CHART

CAMOUFLAGE PATTERNS

We can personalize the articles with specific camouflage patterns according to our client's requests.
We can add an anti infrared treatment to the fabric according to the technology curve of reflectance.

COMBAT LAYER

Combat suit, Italian army submariners

UNI EN 531/97 A-B1-C1

Protects clothes in dirty, wet and flammable environments. Designed to allow freedom of movement. Moisture-wicking for hot environments. Suitable for work or casual wear, including athletic activities.

Features

- Flame-resistant aramid construction: won't burn, melt or drip
- Anti-static
- Zip chest, side and cargo pockets
- Light weigh
- Breathable
- Comfortable

Composition

- 180gsm of inherently FR aramid fibers with 93% Meta-Aramid, 5% Para-Aramid, 2% Antistatic in twill 2/1 weave.
- Due to integrated carbon antistatic yarn, prevents building up electrostatic discharge (ESD) reducing the possibility of explosion in flammable environments

Standards

Certified in BTTG (UK) lab to ISO 11612 and EN 1149-5 standards.

- Larger expansion panel at lower back enhance transverse tension
- Larger front thigh pockets
- Double layer seat
- Unique low-profile waist adjust system
- Concealed water bottle/magazine stabilizer in each cargo pocket
- Sizing: 2-inch waist increments and multiple lengths for a perfect fit.

Composition

- 35% Cotton and 65% Polyester

Albanian army BDU, IR remission

Military BDUs are specifically designed to endure the harsh conditions of the battlefield and remote locations. Look for BDUs with reinforced stitching, double-layered fabric in high-wear areas, and ergonomic design, ensuring a durable yet comfortable uniform.

The materials heavily influence a battle dress uniform's quality, durability, and functionality.

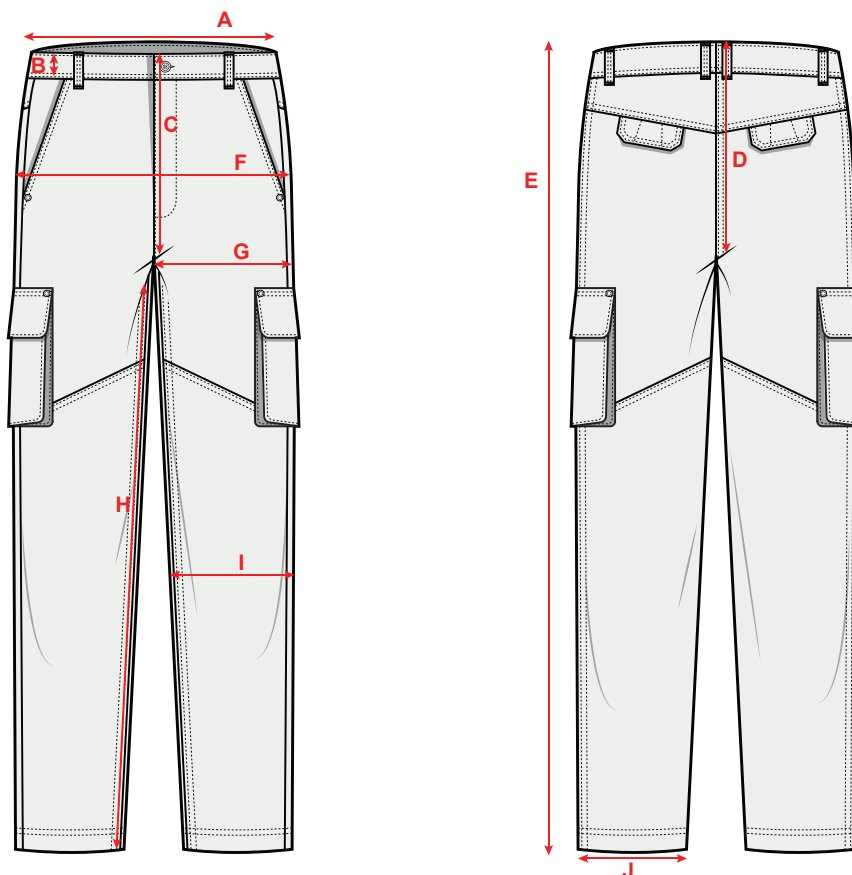

NyCo Ripstop is designed to withstand the wear and tear of tactical and military activities, making it ideal for long-lasting BDUs. The combination of nylon and cotton ensures a comfortable fit, providing breathability and moisture-wicking properties for extended wear, and the specialized ripstop weave pattern prevents the spread of tears, ensuring your BDU stays functional and intact.

Fabric with IR remission allows you to remain invisible when exposed to infrared radiation.

- Light color fastness grade 6.
- Multi-spectrum camouflage provides excellent protection from infrared.
- High-quality materials like NyCo Ripstop.

Composition

- 92% Cotton 8% Polyamide

Albanian police biker EN 343, EN 342

This waterproof, windproof, breathable three-layer shell jacket now comes with four stand-alone liner options, all designed for unrestricted movement when combined with supershell, prepared for action with drop shoulders and articulated elbows. The strategically located accent patches keep the jacket cleaner, and its scooped back gives it a distinctive public safety appearance. Let's face it: a few outerwear jackets look cool and keep you safe. Supershell set the standard for design excellence and user confidence. The waterproof, breathable protection makes it ideal in emergencies that may be hours or days before the mission is completed. Valuable features are too numerous to mention. Double storm flap fronts, a high neck collar with chin guard, interior pockets for storage, and hand warmer pockets to keep you warm in the cold are just a few. The jacket uses the most durable 3-layer fabric construction for protection at its best. They are certified to EN 343 and EN 342.

- Light color fastness grade 6.
- Waterproof, windproof, breathable 3-layer fabric provides comfort and protection in all conditions.
- Multiple zip-out insulated liner options are available.

Composition

- 100% Polyester with PTFE membrane

PRECISION

Marine Pants

The 'Marine' (Flex Fit) trousers are the perfect casual and tactical trousers for the outdoors, on hikes, at the range, or in the office. The slight touch of elastane in the fabric gives you the flexibility you need for maximum comfort without sacrificing looks. You get an incredibly stretchy fabric that is soft to the touch but simultaneously durable and long-lasting. They perfectly balance everyday life and an operational trouser, giving you the look and feel of full utility.

Features

- Comfort fit.
- Ten outside pockets.
- Reinforced "hand" pockets at the edge and with an inner divider.
- Groin gusset to eliminate "saddle pinch."
- Five belt loops with Velcro straps.
- Inner waistband with Velcro (pad).
- YKK® zip.

Composition

- Anti-static, Anti-microbial, moisture wicking mesh

Combat Pants

Features

- Casual fit with contemporary look and feel
- Two large front hand pockets with re-enforced fillets and drawstring to adjust the kneepad height
- Two rear pockets secured with a hook-and-loop closure
- Two small utility pockets on the front for smaller accessories
- Two frontal expandable pockets with hook-and-loop flap closure
- Two expandable cargo pockets with button closure and quick access zippers, elasticated attachment points and internal pockets
- Two hook-and-loop adjustable external kneepad pockets with hook-and-loop closure and reinforced Cordura patches on the front
- Two calf utility pockets with hook-and-loop closure
- Hook-and-loop adjustable cuffs
- Internal cuff hooks to prevent pulling up of trousers while walking
- Diamond crotch design to add flexibility in movements
- Wide waistband with button and PRYM button fastening
- Eight re-enforced belt loops can accommodate belt up to 2.4 (6cm) wide
- Two hook-and-loop waist adjusters on the front
- Genuine YKK fly zipper hardware
- Durable PRYM snap buttons

Composition

- Two-way mechanical stretch Ripstop fabric
- Teflon treated
- 65% Polyester, 35% Cotton 225gsm
- Coolmax waist lining for better breathability and moisture wicking

Bermuda Shorts

Stylish shorts, ideal for summer time.

Features

- Button waist with pull adjuster both sides
- Button fly
- Two front and two rear button flap pockets
- Two cargo style pockets with concealed button flap

Composition

65% Polyester, 35% Cotton

Stretch Pants

Made of lightweight and elastic fabrics, the Stretch Pants feature a total of nine pockets, are reinforced on the seat and knees for better durability and are ideal for everyday wear as well as for highly demanding outdoor activities such as hiking and hunting.

Features

- Zip with stud button fastening on the front
- Five belt loops 2.4" (approx. 6cm)
- D-ring attached underneath the right front belt loop
- Two front pockets with extra right integral pocket
- Two large double hook & loop pockets
- One magazine pocket with hook & loop closure
- Two back single hook & loop pockets with additional integral pockets

Composition

- 96% Nylon, 4% Spandex

Phantom Pants

The denim trousers have a classic '5-pocket' jeans cut that makes them look like normal jeans but conceal a tactical character simultaneously. No one will notice the complete E.D.C. kit in its pockets, allowing concealed carry of pocket knives (where permitted by law), extended gun magazines, short gun magazines, and tourniquets. There is also an additional concealed, SIM-carrying pocket.

Features

- Cut/design: classic five pockets
- Seven hidden pockets
- Hand pockets with internal dividers
- Velcro fabric inside the waistband.
- Velcro fabric on belt loops.
- Velcro fabric inside back pockets.

Composition

- 94.5% cotton 4.7%viscose 0.8% elasthan
11.5OZ

Penitentiary Police T-shirt

T-shirt

Classic T-shirt with crew neck, high-quality blue. Suitable for everyone. The material is soft to touch and wear, does not irritate the skin, and is stretchable.

- Sleeve pocket with velcro to which you can attach various patches.

Composition

- 80% Polyester, 20% Cotton

Polo Shirt

Features

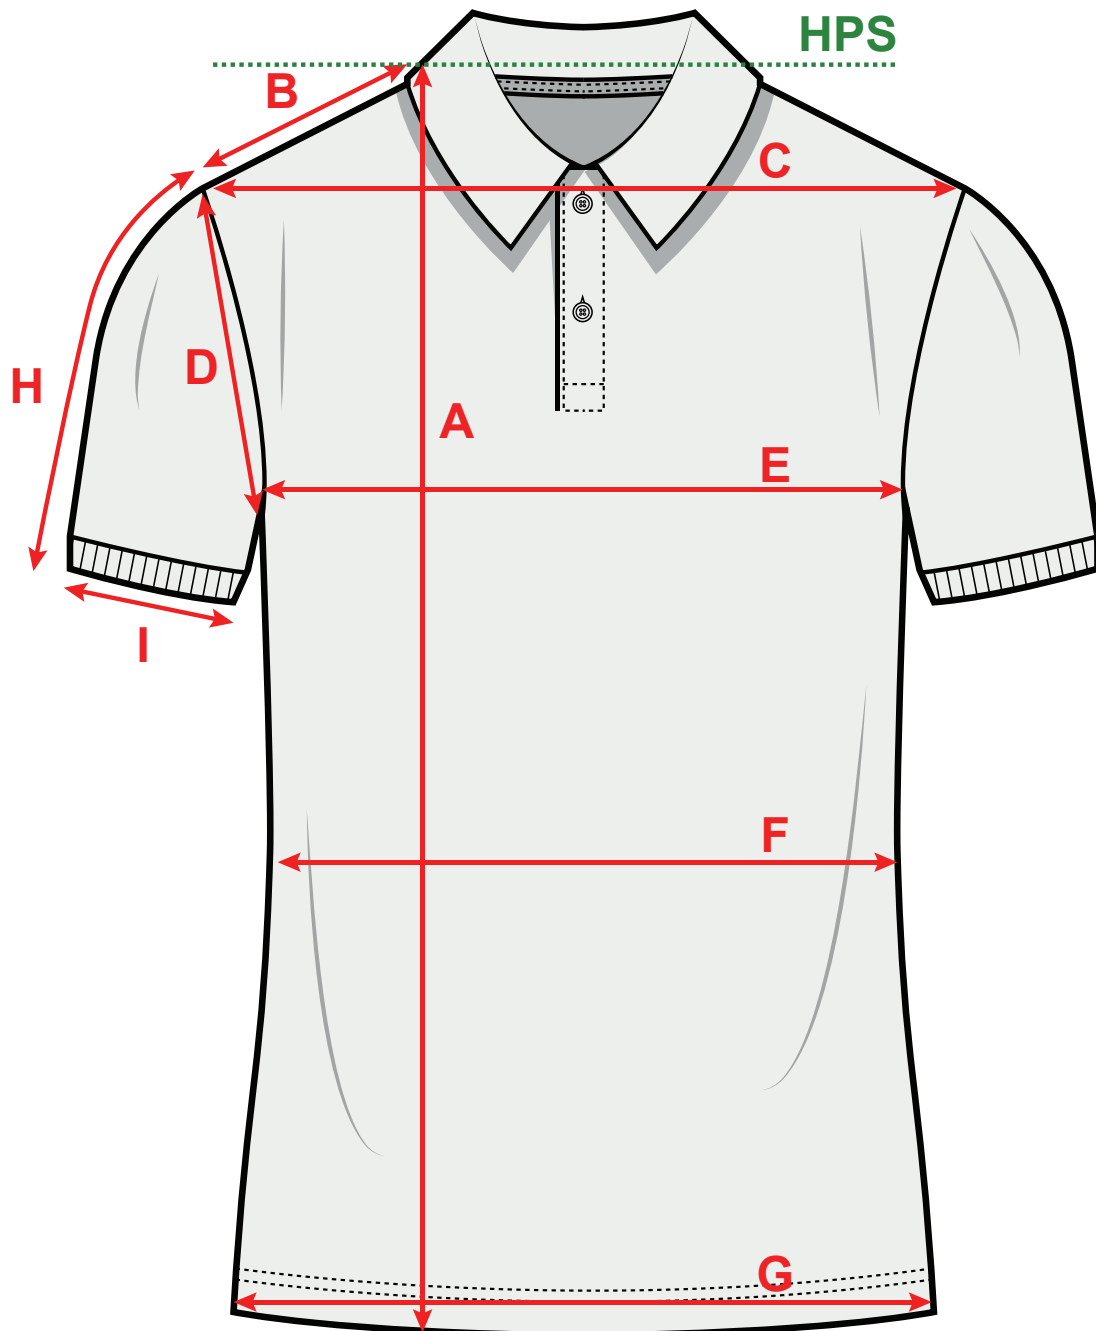

- Personalized Velcro
- Personalized print logo
- Personalized Embroidery

Composition

- 100% microfiber polyester, 160gsm

Penitentiary Police Polo

The Penitentiary police polo is engineered and manufactured to endure in the most rugged, sweat-inducing applications. It's made of lightweight, breathable, and moisture-wicking material, so it'll be your go-to uniform polo when engaging in duties that require mobility. Our Color block polos feature a high-performance, polycotton shell fabric that wicks away sweat and moisture to keep you cool and dry while preventing odors. It's also made with a durable, pique weave fabric that resists wrinkling, fading, snagging, and piling. So go ahead and run it through the wash and wear it daily. It will hold its color for 50-plus washes. This police polo brings exceptional practicality, quality, and safety to the field.

- Sleeve pocket with velcro to which you can attach various patches.
- Fast drying. Lightweight, moisture-wicking polyester pique and open polyester mesh combine to ensure breathability and quick dry comfort.
- Pick and pill-resistant polycotton knit.
- Mesh panels underarms.

Composition

- 50% Cotton, 50% Polyester

Combat Shirt

Fully functional and a comfortable fit, with Raglan cut sleeves for improved range of motion and anti-static and anti-microbial finishes on the chest

Features

- Mesh underarm panel to increase ventilation
- Mesh lined collar to prevent unwanted abrasion
- Two bicep pockets with YKK zipper closures
- 4"x5" loop panels on each sleeve
- Elbow pad pockets abrasion resistant forearms
- Hook and loop adjusted cuffs

Composition

- Anti-static, Anti-microbial, moisture wicking mesh

Tactical T-Shirt

Made of lighter and thinner fabric designed for comfort in hot weather and during activity.

Features

- Anatomic cut for a comfortable fit
- Lightweight
- Breathable
- Quick-drying
- Moisture-wicking
- Two bicep pockets with loop panels for personalization
- Durable webbing hanger on each pocket for glasses
- Loop ID panels (4.5x8.5cm, 1.7"x3.3")

Composition

- 100% Polyester

Fleece Pullover

The Fleece Pullover is a modern style pullover with smooth face featuring a ¼ front zipper with chin guard, chest pockets with pull-out ID panel, concealed zipper pocket and large front hand pockets for storing large items, such as walkie-talkie or smartphone.

With a loose cut design, the jacket is ideal for both law enforcement and the military, security personnel, and outdoor activities.

Features

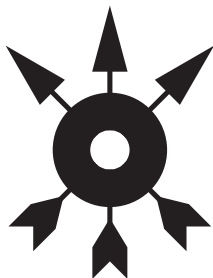

- Zippered pocket on left chest
- Concealed zipper pocket on right chest
- Zippered pocket and loop field for badge attachment on left sleeve
- Large front hand pockets with zippered closure
- Elasticated cuffs
- Adjustable waist with elastic cord and cord lock on each side

Composition

- 7 oz polyester smooth-faced midweight fleece

Albanian army Parka, IR Remission

This jacket has essential features based on the classic M65 parka design. This reimagining of the iconic survival jacket is spark-resistant and offers precisely what you need to stay safe and comfortable in wet weather or for everyday use.

Made with a unique three-layer fabric, the parka provides exceptional protection from rain and wind. Not only is this material comfortable, but it's also nearly 100% noiseless.

Fabric with IR remission allows you to remain invisible when exposed to infrared radiation.

- Unique hood system allows the hood to move.
- Multi-spectrum camouflage provides excellent protection from infrared.
- The side-zipper opening provides easy access to the holster.
- Adjustable velcro secure wrist strap.

Composition

- 100% Polyester with PTFE membrane

Rain Shell Jacket

This functional high-quality jacket has an integrated cobra-style hood with a concealed adjuster on its back. The jacket features is breathable and waterproof with taped seams ensuring its suitability for rainy, windy and stormy weather conditions.

Features

- Designed for everyday use in urban and outdoor environments
- High collar with chin guard
- Laser-cut adjustable storm hood

Composition

- Material: 100% Polyester

Penitentiary Police Softshell

Constructed with a 100% polyester softshell, it integrates microfleece for warmth and breathability and ensures water-resistant protection in unpredictable weather. Soft-lined internal pockets for electronics and refined exterior pocket placements are for increased comfort and less bulk. Underarm zipper vents for enhanced breathability paired with double-layer reinforced forearms ensure the jacket stands up to the abuse of intense high-output use.

- Dual slider YKK® zipper with Storm-Guard flap.
- Vertical chest pocket.
- Two slash hand pockets.
- Underarm vent zipper.

Composition

- 100% Polyester

Swiss Police Jacket

Down jacket and padding in DuPont Sorona Aura, a synthetic fiber partially made with renewable plant-based ingredients and produced with particular attention toward the environment, soft and highly compressible. The matt fabric gives an essential and classic look, perfect for autumn and winter. It is water resistant thanks to the external water repellent treatment (PFC Free) that prevents water penetration.

- Sustainable.
- Sorona® Flock.
- Two side pockets with zipper.

Composition

- 100% Polyester

Emergency Response Jacket

This jacket features the proven performance of waterproof, windproof, and highly breathable three-layer fabric for ultimate comfort. The Hi-Vis version is certified ISO 13688 EN 343 and has 3M Retro-Reflective Ink accents for 24/7 visibility of your upper body. Machine washable for easy care. Storm fly front protects against wind-driven rain. Custom, function-built pockets help you keep your gear where it's needed - close at hand. Overall, one of our most protective jackets - get yours today.

3-Layer Men's Stretch Hardshell Jacket

This 3-layer jacket with waterproof and breathable membrane was developed together with leading Alpinists for best weather protection and functionality. It is reinforced with rock-resistant CORDURA® yarn woven directly into the jacket and designed to withstand classic dolomite rock and the tough conditions of alpine mountaineering. The PFC-free DWR (durable water repellent) finish, storm hood with pre-shaped visor, ergonomically tailored to a climbing helmet, and one-hand rear adjustment system make this durable and abrasion-resistant jacket suitable for demanding alpine projects under extreme and unpredictable conditions.

Features

- Waterproof welded seams
- The 2-way stretch material for maximum comfort.
- High collar and a waterproof front zipper for protection from the elements.
- Hidden zippered gusset to guarantee precise fit with or without the helmet
- Elastic hem adjustment system with cord locks
- Free motion patterning ensures no hem-lift while climbing
- Ergonomically shaped sleeves
- Velcro-adjustable cuffs
- One-hand adjustable ventilation zips on the back of the upper arm (under tension)
- Zippered security pocket
- Bonded details

- Secure zip chest pocket
- Dual handwarmer pockets
- Double layer collar with fleece
- Pass-through access in both handwarmer pockets
- Covert lumbar pocket at rear
- Elastic hem and sleeve cuffs
- YKK logo-pull zipper hardware
- Integrated zipper garages
- Welded reinforcements at shoulders and elbows
- Bartacking at all major stress points
- Maximum thermal protection

Composition

- 100% Polyester

M65 Jacket

The M65 Field Jacket (also known as M-1965) is a famous field jacket designed for the US military. Introduced in 1965, it replaced previous models of field coats such as the M-1951 field jacket and the M-1943 field jacket. The M-65 field jacket was widely used by United States troops during the Vietnam War. Its robust design which includes a button-in removable warm inner liner turned out to be crucial for soldiers serving in the Central Highlands of South Vietnam, and in the cold weather conditions that came after monsoonal rains.

Features

- Made of high-quality DWR coated NyCo material
- Front zip closure with storm flap
- Four front pockets to meet all storage needs.
- Adjustable waist and bottom hem
- Pleated back for increased range of movements
- Classic shoulder epaulettes with buttons for a neat appearance.
- Oversized front zip closure with press-stud secured storm flap
- High collar with hook-and-loop safety tab and zipped-in concealed non-removable hood
- Two expandable chest pockets with press-stud secured flaps
- Two hand pockets with press-stud secured flaps
- Hook-and-loop adjustable cuffs
- Waist, hood and bottom hem with internal adjustable drawstrings

Composition

- Body: 50% Nylon, 50% Cotton
- Liner: 100% Polyester

HIGH VISIBILITY

Ambulance Hi-Vis jacket, ISO 20471 Class 4, EN 343

First responders and other public safety workers need a jacket for the job. The Ambulance Hi-Vis jacket is certified to meet the latest ISO safety standards and designed for the practical needs in the field. This yellow and black high-visibility jacket has a flexible outer shell that is fully waterproof and windproof. We use 3M Scotchlite high-contrast reflective material in a crosswalk pattern so people can see you in any condition. The jacket is part of our system outerwear liner product line with 3-in-1 zip-in lining options for the right level of warmth and insulation.

Features

- Meets EN471 Class 4 safety standard.
- Waterproof, breathable outer.
- Reflexlite tape (arms, body, shoulders).
- Radio and epaulet loops (outer jacket only).
- Clear badge pocket.
- Ambulance markings.

Composition

- 100% Polyester

Ferservizi Hi-Vis Jacket, ISO 20471 Class 4, EN 343

This class 4 Hi-Vis 3-in-1 Winter jacket has a poly-filled quilted liner with all seams sealed. This hi-vis parka has a zipper front, a storm flap, and a removable hood. It also has a Teflon Shield and a fabric protector. This material repels water, oil, and stains and has segmented heat press reflective tape with black trim. This hi-vis workwear can be worn in 3 ways: with the liner zipped in, without the liner, or just the liner as a jacket!

Features

- Meets EN471 class 4 safety standard.
- Poly-filled quilted liner.
- All seams are sealed.
- Zipper front with storm flap and removable hood.
- Segment heat press reflective tape.
- Additional reflective piping on the collar, hood, and sleeves.

Composition

- 100% Polyester

Ferservizi Hi-Vis pant, ISO 20471 Class 4, EN 343

The Italian railway company uses these trusted hi-vis shell pants with winter lining. Face even the coldest, most treacherous conditions in confidence. With Cordura reinforced knees, adjustable and removable suspenders, and enough pockets to keep all your tools secure and handy, these pants will weather any storm.

Features

- Meets EN471 class 4 safety standard.
- Wind and Waterproof.
- Snow gaiter with velcro and button opening.
- Adjustable removable suspenders.
- Pockets with flap and velcro closure.

Composition

- 100% Polyester

Penitentiary Police Parka, ISO 105 ISO 13934

This police Parka is an outerwear garment that's ready for duty. Quickly adapt to the weather. This waterproof parka is versatile and can be stripped down to the liner or paired with the entire 3-in-1 system for protection from extreme conditions. Two pockets at the waist include zipper closure and chest pocket magnetic closure. Pullout panels on the back and chest are provided for your ID.

- TPU membrane.
- Waterproof with sealed seams.
- Removable hood with extended rigid brim and elastic cinch cord.
- Two-way side seam zip for ventilation and duty belt access.
- Back pull-out ID panel.

Composition

- 100% Polyamide

Lightweight Armor System with Level III+ plates

The Lightweight Armor System is a super lightweight-sized armor solution that provides level III+ threat protection. This kit features our SF plate carrier with two-level III+ plates. The Lightweight Armor System is the perfect kit for special weapons, tactics, and military operations where mobility and function are paramount.

- Front and rear plate pockets load from the bottom.
- Cummerbund has two integrated pockets for 6x6 or 6x8 plates.
- Cummerbund has an integrated radio pouch for Police or MBITR radios with a secure snap.
- Front and Back areas of the loop for placard identifiers.
- Fully adjustable shoulder straps to fit most sizes.

Composition

- 600D Nylon

Armor Tacpro Tactical Body Vest

This Carrier providing the full range of protective upgrades as standard. This includes protection for the throat, neck, groin and upper arm, making it the most complete product available for comprehensive protection. The vest also comes with MOLLE webbing, allowing for even more flexibility.

This product offers powerful protection with an ergonomic design

Features:

- Tough Cordura cover and MOLLE webbing
- Extremely lightweight at 6.6 lbs
- Throat, neck, groin and upper arm coverings for complete protection
- 100% DuPont™ Kevlar® plates at the front, back, and side

Size M/L/XL/2XL

Protective area 0.5-0.65m².

Protective level Against 9mm and 44Magnum to meet ballistic performance at 1640 fps (500 m/s) minimum.

Pockets for ballistic plates in front and back and side.

Kydex plate carrier - Level IIA

This plate carrier been tested and proven to perform on the field by receiving a rating of Level IIA from the USA National Institute of Justice (NIJ 0101.06) for soft body armor.

Lightweight, semi rigid kydex design provides a rigid mounting platform unlike any other plate carrier on the market. The Frame Carrier gives the operator the capability to scale their loadout up or down to meet operational requirements. The Frame Carrier allows for easy attachment of accessory pouches and will accommodate standard MOLLE pouches.

Material: Made with high strength Kydex

High strength and lightweight construction

Hypalon shoulder straps and cummerbund

Compatible with all Molle pouches

Come with dummy plate

Dimensions (cm): 41 (L) x 29 (W) x 15 (H)

Weight (gram): 1,400

Features:

- NIJ Level IIA protection (0101.06)
- Material: Made with high strength Kydex
- High strength and lightweight construction
- Hypalon shoulder straps and cummerbund
- Compatible with all Molle pouches
- Dimensions (cm): 41 (L) x 29 (W) x 15 (H)
- Weight (gram): 1,400

Bullet Proof Vest

Features

- Parabellum caliber: 9mm (stops a 9mm round)
- Protection range: front, rear, shoulders and groin
- Protection area:, M= 0.50
- Protection level: IIIA of NIJ0101.4
- Weight: M = c. 3.5 kg
- Warranty: 5 years

Composition

- PE fiber fabric
- Outer coat: 600 D Oxford fabric
- Color: light Blue

Protective Riot Helmet

The Protective helmet is intended for police officers, law enforcement, and army professionals. The helmet protects the wearer's head against blunt violence, fragments, and debris from flash and bang grenades, arc flash, the influence of heat, fire, and chemical substances (including irritant agents), adverse weather conditions, and atmospheric precipitation.

They have integrated quick-release push-button fasteners for direct adaptation of protective gas masks.

Features

- Comply with EC Regulation No. 1907/2006.
- Can fit the gas mask.
- Allow the comfortable wearing of glasses, (gas) goggles, and a protective gas mask over an extended period.
- Not reduce the natural field of vision.
- Provide a secure and firm fit of the helmet.
- It is designed to accommodate different communication systems.

Composition

- Polycarbonate

Protective Gas Mask

The gas mask is designed for police and military use. It is used in many countries around the world to face potential NCBR threats (Nuclear, Radiological, Biological, and Chemical), which can range from toxic smoke and defense sprays to nuclear, chemical, and biological accidents.

This high-quality mask features an adaptable and comfortable design that fits any facial structure and provides clear communication without an amplifier.

With the most advanced technology in its design, it uses a connection system that filters on both sides, ensuring a clear and unobstructed view when aiming with long weapons.

Features

- Comply with EC Regulation No. 1907/2006.
- Compatible with riot helmet.
- Size: universal.
- Effective field of vision: 77%.
- Binocular field of vision: 83%.
- Resistance to air fluid inhalation at 30 l/min, plus 25 Pa.
- Inhalation air fluid resistance at 95 l/min, plus 80 Pa.
- Exhalation air fluid resistance at 30 l/min, plus 50 Pa.
- Exhalation air fluid resistance at 30 l/min, plus 50 Pa.
- Operating temperature: -30°C to 70°C

Composition

- High-quality rubber

Riot Body Armor Set

The riot body set has been designed to protect the user against impacts from rocks, screws, and similar on the chest, back, shoulders, forearms, arms, neck, genitals, buttocks, abdomen, and legs.

A trusted armor set by law enforcement for years, this 1-size riot suit protects up to NIJ level 1 stab-proof resistance (on the front and back) and is coated with a layer of flame-retardant treatment. It is robust, lightweight, and designed to give users maximum control during anti-riot and civil unrest operations.

Features

- Comply with the technical Directive (TR) for Body Protective Equipment issued by the Institute for Police Technology (PTI) of the German Police University as of January 2011.
- Full front, back, shoulder, upper arm, lower arm, groin, thigh, knee, shin, leg, and foot protection.
- Durable and strong tactical carry bag (black).
- Size: universal.

Composition

- Vinyl acetate + ethylene polypropylene honeycomb

Pepper Launcher | Non-Lethal Security

The pepper launcher is an advanced self-defense weapon and is the most accurate pepper spray product on the market. The pepper launcher shoots a continuous stream of pepper spray up to 6m from any angle. Accurately hitting your target with a built-in trigger-activated LED laser light is easy. Each pepper launcher has an H2O practice cartridge, a pepper spray cartridge, and batteries to power the LED light. Each cartridge contains up to 7 shots. Replacement cartridges are readily available in three package combinations.

Effects: Upon direct contact with eyes, respiratory system, and mucous membranes, the active ingredients in the pepper spray will cause eyes to slam shut, coughing, and an intense burning sensation to the skin. The effects should lessen in approximately 45 minutes.

Safety: Strong Irritant. Keep out of reach of children. Contents under pressure. Do not puncture or incinerate. Following exposure, follow the first aid instructions included with your pepper spray.

- Dimensions Approx. 6.5" x 4.5" x 1.5".
- The most accurate non-lethal device equipped with LED strobe light.
- Pull the trigger again, and the pulsating strobe light is engaged.

Tactical Gloves

- Synthetic leather palm with reinforcement and padding
- Two-way stretch spandex backhand for flexibility and breathability
- Hook and Loop cuff closure with molded rubber tab
- Silicone anti-slip treatment finger tips to maximize grip
- High density padded knuckle for shock absorption

Tactical Protective Gloves

Intended for use by police officers taking part in special police tactics (SPT), the protective gloves protect the wearer's hands against blunt violence, fragments and debris from Flash and Bang grenades, heat, fire and chemical substances (including irritant agents) and adverse weather conditions.

Standards

- The protective gloves and all stages of its manufacturing comply with EC Regulation No. 1907/2006 - REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), and other relevant applicable regulations of the European Union.
- The protective gloves comply with the following standards:
- EN 420:2003 – Protective gloves. General requirements and test methods;
- EN 388:2016 – Protection gloves against mechanical risks:
- ISO 8559-2:2017 – Size designation of clothes – Part 2: Primary and secondary dimension indicators.

Tactical Belt

This tactical belt is heavy duty and tear-resistant. It has excellent load bearing capacity making it possible to attach pouches and holsters. Ideal for Police and Military use as well as outdoor recreation.

Features

- Easily adjustable from 60cm to 100cm.
- Wide enough for comfortable all-day wear (2")
- Quick release buckle for easy donning and doffing
- Robust and stable for load-bearing

Composition

- 600D Nylon

BELT SIZE CHART

DIMENSION	S	M	L	XL	2XL
size	54	56	58	60	62

Holster for Beretta PX4

The professional duty holster is made of Tritech (thermoformed trilaminate) and ensures excellent safety performance, practicality, and resistance in all conditions of use.

- Retention level 2.
- Wearability: Medium-low belt; Right or left; S-shaped loop.
- Portability System: Multilink System.

Composition

- Tritech - Thermoformed Trilaminate

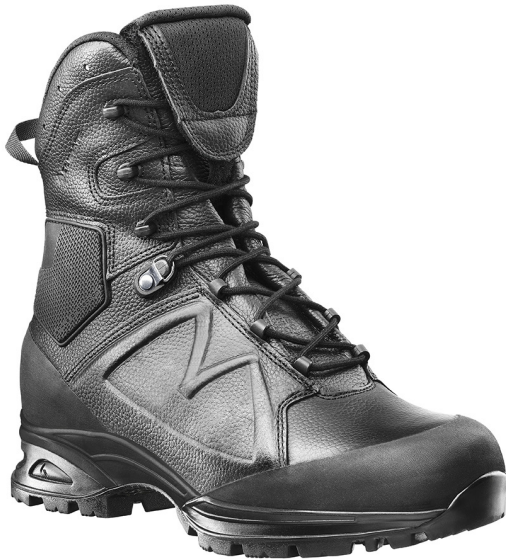

Textile Police Tactical Boots

Precision police shoes offer maximum protection and comfort in every situation. These shoes have proven their worth in daily use by police and security forces and are ideally suited to the demands of duty. They always offer safety and reliability thanks to their durability and perfect fit.

- Highly breathable.
- Excellent grip on a variety of terrains.
- Abrasion-resistant lining with optimized climate comfort.
- Comfortable, cushioning, moisture repellent, washable at 30 °C.
- Running sole: made of rubber; fuel-oil, heat-resistant, and cold-insulating compliant.
- Elastic two-layer PU midsole, lightweight, cushioning effect.

Composition

- Microfiber/textile combination

Leather police tactical boots

Precision police shoes offer maximum protection and comfort in every situation. These shoes have proven their worth in daily use by police and security forces and are ideally suited to the demands of duty. They always offer safety and reliability thanks to their durability and perfect fit.

- Waterproof and breathable.
- Excellent grip on a variety of terrains.
- Smooth and non-pressure adjustment of the boot to the foot.
- Comfortable, cushioning, moisture repellent.
- Flexible, non-metallic protective throughsole.
- Rubber/PU sole with a street/terrain tread, wear-resistant, and non-slip traction.
- Waterproof Leather, hydrophobic, breathable (5,0 mg/cm 2/h), 2,0 – 2,2 mm thick

Tactical Boots

Features

- Repels water without sacrificing breathability
- Quick-dry minimalist design includes medial side drainage vents that help keep feet dry
- Anti-odor technology applied to molded parts
- Full-length GC midsole with reinforced TPU shank for increased stability
- Height: 8"
- Offset: 10mm
- Weight: 15.5 oz.

Composition

- Leather & 900D nylon textile combine for a soft & light upper
- Low profile rubber lug sole increases traction

Penitentiary Police Operation Cap

Custom created for corrections officers. This one's got a low profile with an adjustable strap and curved visor.

- TC ripstop.
- Unstructured, 6-panel, low-profile.
- Adjustable strap with in-tone buckle.
- With metal logo.

Composition

- 65% Polyester 35 Cotton

Albanian Army Cap, IR Remission

The Albanian army's 8-point cap is modeled after the classic military utility cover or utility cap. The military hat is typically worn, creased, and peaked for a sharper appearance when in uniform.

- 2-Ply Construction for Added Strength.
- Modeled After the classic military-style 8-point utility cap.

Composition

- 92% Cotton 8% Polyamide

Fire Retardant Balaclava

Fire retardant and heat protective balaclava ideal for use by police officers taking part in special police tactics (SPT). The balaclava protect the wearer's head, face and neck against fragments and debris from Flash and Bang grenades, arc flash, fire, heat, adverse weather conditions and atmospheric precipitation.

Standards

- EN 1149-3 Antistatic;
- EN 11612 A1, B1, C1 Heat and Flame retardant;
- IEC 61482-1-2 Arc Flash protective;
- ISO 4915 – Textiles. Stitch types. Classification and terminology;
- ISO 4916 – Textiles. Seam types. Classification and terminology.

BACKPACKS & ACCESSORIES

Tactical backpack

This 42L is one of the most oversized backpacks in our range, designed for extended missions but super-functional, compelling, and perhaps multi-day trips. This backpack comfortably protects and carries all your belongings, whether you need to have it on your back, store it on the roof of HMMWV, or a speed boat. It is incredibly sturdy on the outside: the TPU-coated polyester shell is waterproof, while the mesh and padded strap system and weight-supporting straps ensure comfortable carrying even as you reach the hostel or run to the camp base. This backpack is similar to a suitcase; it is equipped with an opening and interior zipper; in addition, we have divided with mesh pockets of different sizes so that you can keep clothing, travel documents, toiletries, and other essentials organized to the best of your ability, even as you move around. We've also added a padded laptop or tablet compartment, a computer pocket with a power cord, a zippered top pocket for what you need to have on hand, an external bottle holder, and a smart exterior pocket for quick access to the main compartment even without fully opening the backpack. Four reinforced handles let you grip, pull, and grab from all angles, and with carbine anchors, you can count on a handy extra gear.

- TPU-coated 1000D polyester shell with 840D ballistic nylon lining.
- Low-profile strap system with removable and adjustable torso-height hip belt.
- Shoulder straps with belts for weight support.
- Removable fabric side straps.
- Suitcase-like.
- Main compartment with perimeter zipper.
- Internal compression straps were removed and replaced with inner spandex zipper gussets for dynamic compression.
- Weight 1871g; dimensions 56 x 36 x 27 cm; capacity 42.

Material

TPU-coated 1000D polyester shell with 840D ballistic nylon lining

Modular Assault Pack

Made of high quality Cordura fabric, this lightweight field pack has a laser cut Molle system on the outside. Ideal for military use but equally handy for civilian use.

Features

- YKK zipper closure
- Multi-pocket design
- Loop platform for patches
- Compatible with all Molle platforms
- Weight (gram): 860
- Package includes: Assault Pack x 1

Composition

- Cordura fabric

Dimensions

- 44cm (L) x 34cm (W) x 6cm (H)

Back Pack

Features

- Padded Mesh Air Flow System with Internal Frame Support
- Top Loader with Roll Top Closure
- Front Zip Access for Dual Entry into Main Compartment
- Additional Front Zip Compartment
- Side Padded Protection Flaps with Straps and Elastic Pockets
- Integrated Shoulder Strap Zip Pockets
- Integrated Hip Belt Zip Pockets
- Drop Out Bow and Rifle Attachment System
- Hydration Bladder Included
- Weight: 6.25 lbs (bladder is 0.4 lbs of total weight)
- 2200 Cubic Inches
- Stowaway "Pack" Shelf

Composition

- Lightweight Rip-Stop Material

Suitcase Bag (Italian Navy) UNI EN 531/97 A-B1-C1

Features

- Tests in Italian laboratories certify the resistance of the fabric to tearing and the solidity of the color
- Breathable mesh fabric under the arms
- Available in Navy or Italian Camouflage including Velcro
- Numerous pockets with zippers

Composition

- Anti-tear rip stop fabric, 92% cotton 8% polyester,
- 100% PA Cordura reinforcements on elbows and knees
- weight 205 gr / sqm

Standards

- Complies with the Technical Specifications 1427 / E-VEST

Set bags for Italian Civil Protection UNI EN 531/97 A-B1-C1

Blue backpack, in strong 600D Nylon, rigid bottomed-box and applied embroidered logo

Features

- Size 36x24x48 cm
- Composed of 3 parts
- Water repellent
- Interior lined in blue
- Side handle to enable versatility when using the bag
- The shoe bag and front backpack are removable
- Equipment hooks for carrying equipment
- Reflective rear logo

Composition

- 600D Nylon
- Anti-drain Fabric

Comforter Bivy Bag Set Italian army UNI EN ISO 6330

Set of two modular mummy bags used by the Italian expedition corps in Afghanistan.

Features

- The bags can be used separately as well as one inside the other, in order to provide comfortable conditions at any temperature.
- The outer bag stuff sack can contain both bags, while the inner bag has its own separate stuff sack.

Composition

- Outer bag can be filled with down (art.86050MN) or polyester (art. 86050QD)
- Inner bag has a polyester fibre filling.

ESTREMA -35 EXTREME	LIMITE DI COMFORT -15 COMFORT LIMIT TEMPERATURE	COMFORT -8°C COMFORT
■ La normativa Europea prEN 13537 specifica nel dettaglio il significato di questi livelli di resistenza: • Temperatura Estrema: livello estremo di temperatura cui può resistere un fisico medio femminile senza incorrere in danni fisici da ipotermia. • Temperatura Limite di Comfort: esprime il limite più basso di temperatura entro il quale un fisico maschile che assuma una postura rannicchiata ottenga un equilibrio termico senza sensazione di freddo. • Temperatura Comfort: esprime il limite estremo di temperatura entro il quale un fisico femminile che assume una postura rilassata ottiene un equilibrio termico senza alcuna sensazione di freddo. ■ The European standard prEN 13537 specifies the meaning of these resistance levels in detail: • Extreme Temperature: an extreme temperature level that can be withstood by the average female body without risking physical damage from hypothermia. • Comfort Limit Temperature: the lowest temperature limit within which a male body in a curled up position can reach a thermal equilibrium without feeling cold. • Comfort Temperature: the extreme temperature limit within which a female body in a relaxed position can reach a thermal equilibrium without feeling any cold.		

Self-inflating mattress (Italian Army) UNI EN ISO 6330

Features

- Honeycomb core construction for reduced weight
- Special rotating inlet valve for self-inflation
- Stuff sack to contain the mattress, folded in half and rolled up
- Repair kit included

Composition

- 75 Den polyester fabric with non-slip surface

Military shields

Ornamental shoulder pieces and Rank epaulettes for affixing onto items of clothing, such as Military or Law Enforcement coats or jackets. Usually worn by all ranks of elite or ceremonial units when on parade.

Features

Can be ordered with customized, embroidered logo. Badge can be sewn on, ironed on or fixed with adhesive. The logo can be embroidered/printed/embossed/debossed

Composition

Polyster, Cotton, Nylon, Twill, Woven, Canvas, Felt, Silk, PVC, Silicone

Metal Detector

Detects medium-sized pistols from 9" distance; large knives from 6"; razor blades and box cutters from 3" distance; foil-wrapped drugs and tiny jewelry from 1".

- Easy and simple operation.
- High sensitivity: Objects the size of a pin and 3.5cm away from the detector can be detected easily.
- Large detecting area, from up to down, detecting can be completed without interruption, significantly improving working efficiency.
- Exclusive independent low battery voltage system among all models, with yellow LED indicating low voltage.
- Major feature is double alarming mode: Buzzer, LED, and vibration, detecting metal objects in a fast and accurate way.

Searchlight

LED Remote Control Searchlight, with Permanent Mount, includes Hardwired Dash-Mount Remote, 20' Wiring Harness with Quick Disconnects for Easy Installation, and Mounting Hardware, available in Black or White.

- 10 High Flux LED's.
- 370° Rotation x 135° Tilt
- 410,000 Candela, Max Beam Distance 4,200 ft

SMART PATROL VEHICLES

Defender is a security vehicle optimized for indoor and outdoor patrolling. With its aluminum alloy frame, full suspension, and upright riding position. Defender replaces the fatigue of pedaling a bicycle or walking long distances with an ergonomic, stable, and comfortable ride that is easy on the body. The defender is the perfect safety tool for faster response times, covering more areas, and interacting with the public. Move faster and get your work done with this versatile vehicle. This vehicle runs continuously on a replaceable battery. It guards parking structures, travels indoors or outdoors, makes quick trips around the property, and responds immediately to calls.
